Hi Dan,

I don't understand that...I don't remember any remaining issues on the BERA. We included all of USFWS comments on the BERA and George didn't have any comments on the PRP's responses. I attached the FWS comments and EPA comments that were sent to the PRP. Below is a copy of an email (11/15/2016) indicating that FWS and CDM had no further comments. NJDEP didn't have any further comments on the RTCs either.

Thanks, Mike

---

Wow is right! I talked with George and he has no further comments. I need to check with NJ.

Subject: Rolling Knolls - Revised BERA

This concerns the Revised BERA submitted by the PRPs on 10/25/16.

We have reviewed the report and have no further comments – the revised document addressed our comments satisfactorily and completely.

Let me know if you have any questions.

Hi Betsy,  
Yes – 2/15/19 is the final version of the BERA presentation.

Just and FYI – I got an email from George Molnar (FWS) asking why I was presenting a RP-prepared BERA. I responded that it was just going to be a summary of a report that was approved two years ago, with NJDEP and FWS input, so it shouldn't be an issue. He responded that "Folks had problems, but EPA ignored." I didn't respond further, but it seems they may have outstanding issues.

Mike – do you know what comments they made on the BERA that EPA didn't address to FWS's satisfaction?  
Thanks,  
Dan

Hi Dan, Is this the final version of the BERA summary? We are planning to send an advance copy to FWS. Thanks
